About me

I am a recent computer engineering graduate with a specialization in software engineering, currently seeking a position that aligns with my skills. I have a strong background in all stages of project development, as well as project management and teamwork. I am proficient in a variety of programming languages and frameworks.

Skills and Abilities

knowledge

- Software development
- Proficiency in various programming languages and frameworks
- Software life cycle, project management, and agile methodologies (Scrum)

Methods

- Project management: Agile (SCRUM)
- Modeling : UML

Techniques

- **Programming Languages & Frameworks:**
 - Java , JavaScript , TypeScript
 - Spring/Java EE , Angular , Nodejs , ReactJs , DotNet
- **SGBD :** MySQL , MsSql , MongoDB
- **Mobile Development :** Swift , Flutter
- **Other Technologies :** Spring Security , Hibernate , REST APIs
- **Design Pattern :** MVC , MVVM
- **Operating systems :** MacOS , Linux , Windows
- **Tools :** VS Code , IntelliJ , Lucidchart , StarUML , Figma , Balsamiq , Xcode

Experience

FULL-STACK ENGINEER/DEVELOPER

End-of-study internship at UNIMED | April 2022 - Nov 2022

Technical Environments : NodeJs , ReactJs , ExpressJs , MongoDB , MsSql , MySql , HTML / CSS , JavaScript

Mission :

Design and development of an intelligent search engine for the company that facilitates the search for an article on local files, databases, and emails

ACADEMIC PROJECT

Final Year Project | March 2021 - June 2021

Technical Environments : Spring Boot, Angular, REST APIs, Hibernate, MySql, HTML / CSS, JavaScript

Mission :

- Design and development of a Final Year/End-of-Studies project tracking application using the Spring Boot framework on the backend and implementation of the frontend with the Angular framework.

FULL-STACK ENGINEER/DEVELOPER

Internship at ItGate Group | July 2020 - September 2020

Technical Environments : Spring Boot, Angular, REST APIs, Hibernate, MySql, HTML / CSS, JavaScript

Mission :

- Design and development of an event management application using the Spring Boot framework on the backend and implementation of the frontend with the Angular framework.

Education

2019 – 2022: **National Diploma in Computer Engineering**

- International Multidisciplinary School – EPI (Sousse)

2017 – 2019: **Preparatory cycle for engineering studies**

- International Multidisciplinary School – EPI (Sousse)

Interests

- Sport & Healthy
- Travel & Camping
- Netflix
- Cryptocurrencies

Languages

- **French :** Proficient
- **English :** Intermediate
- **Arabic :** Fluent
